

Midterm section evaluations

1) Sections are a combination of covering the main points of the readings / putting them into context and having group discussion. Thinking of our sections overall, do you think we need more reading coverage, more discussion, or have it about right?

More coverage of readings			Just right		More discussion
1	2	3	4	5	

Comments:

2) In this section, we usually do not address the weekly discussion questions directly, but do cover the main themes that are reflected in the questions. Do you feel that the section gives you the tools and insights you need to answer the weekly discussion questions?

Yes, always		Sometimes		No, never
1	2	3	4	5

Comments: (If you answered no, what is missing? Would you prefer directly covering the discussion questions?)

3) Do you recall a section (or part of section) that was particularly useful/enjoyable? Which section was it, and what did we do well?

4) Do you recall a section (or part of section) that was particularly unnecessary/unenjoyable? Which section was it, and why was it bad?

5) Anything else you would like to see changed (or kept the same)?
